

Instructors

Brian Freund MPT, MBA, CSMT

Brian Freund graduated from Rockhurst University in 1999 with a Master's degree in Physical Therapy. Brian is one of the original founding members of Midwest Spine Therapists, which has since become International Spine and Pain Institute. Brian lives in St. Louis where works for ProRehab. He also returned to

school and completed an MBA from Lindenwood University in 2004. Brian has completed extensive post-graduate training in manual therapy, including courses from the Neuro Orthopedic Institute and the North American Institute of Orthopedic Manual Therapy. Brian completed his manual therapy certification (CSMT) with ISPI and has taught several lectures/weekend classes on manual therapy. Brian is now working on completing his manual therapy certification through NAIOMT.

ISPIInstitute.com

ISPI is an independent educational group that is committed to high-quality, affordable, up-to-date, evidence-based and clinically applicable continuing education for physical therapists. Courses provided by ISPI are instantly applicable in clinical settings and offer a variety of treatment options in the current managed care environment from highly skilled hands-on, mobilization, exercise programs, to patient education.

Manual Therapy for the **Cervical Spine**

March 31-April 1, 2012
Flower Mound, TX

Open to Physical Therapists only

Manual Therapy for the Cervical Spine

This course is approved for 1.5 CEU's by most PT Association

Course Description

This introductory, 2 day (15 hour) course offers a comprehensive investigation into the physical dysfunction of the Cervical Spine and its physical evaluation and treatment. The course is designed to provide the clinician with the skills to diagnose common Cervical Spine pathologies, recognize subjective and objective signs and symptoms of common Cervical Spine pathologies, determine the necessary precautions and contraindications, and design comprehensive treatment protocols, both manually and exercised based. New and updated clinical pathology of the Cervical Spine from **Drs. Lance Twomey, James Taylor, Nikolai Bogduk and David Butler** form the framework from which Cervical Spine pathologies and pain patterns are discussed.

Physical therapy treatment, as well as medical interventions and diagnosis (MRI, CT scan, X-Ray, etc.) will be discussed in relation to the new and updated research information. The material covered in this course is immediately applicable in the clinic and covers common conditions such as disc lesions, nerve root pain, facet joint injuries, spinal stenosis, headaches, whiplash injuries, etc., which will be discussed in depth. Clinicians will be instructed in safe and effective handling skills during the evaluation and treatment of the Cervical Spine. Numerous assistants will be available to ensure high quality, hands-on help. Treatments covered include joint mobilization, traction, neural tissue mobilization, soft tissue mobilization, functional rehabilitation as well as patient education.

Special Features

- Sound clinical reasoning, based on the Australian Maitland Approach
- Latest, best evidence on the evaluation and treatment of whiplash injuries
- Thorough subjective and objective examination
- Spinal Imaging - X-Ray, MRI, CT, Discogram, mylogram & more
- Spinal mobilization, neural tissue mobilization, exercise, modalities, medical treatment and referrals and more...
- Medical management: Pharmacology and Epidurals
- Patient education, based on the latest research: obesity & LBP, mattresses, smoking, back packs and more
- 200 + page manual with pictures of all tests, techniques and exercises.

Course Layout

Day 1:

8:00 - 8:15 Introduction & welcome
8:15 - 9:15 Spinal pain and Clinical Reasoning
9:15 - 10:00 Clinical Pathology of the C-Spine
10:00 - 10:15 Break
10:15 - 10:45 Clinical Pathology of the C-Spine (cont.)
10:45 - 11:45 Subjective Evaluation
11:45 - 12:00 Group case study task 1
12:00 - 1:00 Lunch
1:00 - 1:15 Planning the objective evaluation
1:15 - 3:00 Physical Examination of the C-Spine
3:00 - 3:15 Break
3:15 - 3:30 Group case study task 2
3:30 - 5:00 Spinal Mobilization

Day 2:

8:00 - 9:15 Whiplash Injuries
9:15 - 9:45 Neurodynamics of the cervical spine
9:45 - 10:15 Mobilization of the Nervous System
10:15 - 10:30 Break
10:30 - 11:00 Spinal Mobilization
11:00 - 11:30 Contraindications & precautions
11:30 - 12:00 Medical Tests and Imaging
12:00 - 1:00 Lunch
1:00 - 1:30 Spinal surgery & Rehabilitation
1:30 - 2:15 Managing the Whiplash patient
2:15 - 3:00 Exercising the Cervical Spine
3:00 - 3:15 Break
3:15 - 3:45 Group case study task 3
3:45 - 4:45 Spinal Mobilization
4:45 - 5:00 Summary, Conclusion, Questions

Course Objectives

- Understand the clinical pathology of the Cervical Spine
- Able to conduct a thorough subjective evaluation
- Able to perform a skilled physical examination of the Cervical Spine and associated structures
- Design and implement a thorough treatment plan, including spinal mobilization, neural tissue mobilization, soft tissue mobilization, exercise, traction and education.
- Perform all the techniques in a skilled and safe manner.

Hotel, Travel and Confirmation

ISPI will mail out official confirmation notices. Please do not make any travel or accommodation arrangements until you receive your confirmation.
