CONFERENCE 2019  
DENVER, CO | MARCH 8-10  
THE PREMIER PAIN SCIENCE CONFERENCE

- LEARN FROM INTERDISCIPLINARY SPEAKERS
- BUILD YOUR OWN LEARNING PATH AND EARN CEUs
- ACCESS CUTTING-EDGE CONTENT FROM RESEARCHERS
- CONNECT WITH OTHER REHAB PROFESSIONALS FROM AROUND THE GLOBE
- PERFECT YOUR PRACTICE WITH LAB-INTENSIVE SESSIONS
- GAIN CLINICALLY-APPLICABLE KNOWLEDGE TO USE ON MONDAY MORNING

JOIN THE PAIN SCIENCE MOVEMENT

## NEW COURSE OFFERING

### Too Hot To Handle

With the advent of pain neuroscience exploring issues associated with neuroplasticity, it has become increasingly clear that in a certain patient population, physical touch and movement, essential for recovery, could actually pose a threat. But how can you help your patient get to the point in their recovery where touch and movement are not threatening? Too Hot to Handle will give you exercises and techniques to use in your clinic on Monday morning.

**Audience:** Open to all health care providers
